

Pete says:

"Tobacco's tobacco, I s'pose, an' there must be a raft of fellers that likes to chew an' smoke the kind that tastes like a' infants' an' invalids' breakfast food."

"An' a lot more marks must enjoy diggin' tobaccostems from between their teeth or tamin' 'em down in their pipes an' tryin' to make 'em burn. 'They're welcome—let 'em go as far as they like. But for me, as old Patrick Henry said, 'Gimme LIBERTY!'"

Live wires whose jobs keep them on the jump all day want a tobacco with "insides" to it—something with body and fullness and relish. They get it in LIBERTY Long Cut. It's all choice, selected leaf, aged from three to five years to ripen and sweeten and grow fragrant and tasty.

LIBERTY is all real-thing, meaty, smoking-and-chewing-goods, too—no loose, hard stems—no short, broken leaves—just real QUALITY clear through.

You'll be glad if you begin, right away, to smoke and chew LIBERTY. It's the BEST money's worth your nickel can buy.

FATIMA

A Sensible Cigarette

Here's cigarette-comfort

FATIMA may never become the only cigarette smoked by keen, substantial men of this type. But Fatima has already become more popular with such men than almost any other cigarette.

This is because men who smoke wisely want a SENSIBLE cigarette—a cigarette that is comfortable to the tongue and throat and that leaves a man feeling "fit" and clear-headed even after smoking more often than usual. You should try Fatimas.
